CIA Appropriations -- Weekly Report #4.

1. CIA funds [redacted]

25X1

[redacted] have been approved both in the Senate and the House. The bill is now in conference, but this does not affect the CIA funds which are not an issue.

2. CIA funds [redacted]

25X1

have been completely approved in the House. I have been informed this morning by Senator O'Mahoney and members of the Committee staff that these funds have now been approved by the Armed Services Subcommittee of the Senate Appropriations Committee. This bill is being considered by the full Senate Appropriations Committee today, and so far as I am able to ascertain our funds are intact and we will not be caught by any of the riders.
